Dear [redacted]

This will acknowledge your letter to [redacted] dated 15 January 1953, concerning an initial meeting of the FBIS - BBC Standardization Committee.

STAT

We recently sent a draft revision of the FBIS editorial field manual to field bureaus for comment. Following receipt of bureau comments and suggestions about 15 March, we plan to send you the draft for consideration by the Standardization Committee, with particular reference to certain portions thereof. It therefore appears that the meeting should be planned for mid-April to allow time for the above preparations.

Sincerely,

STAT
